CAN'T TAX THE INDIAN LANDS

Supreme Court Decides Against State. Can't Tax Lands for Twenty-One Years.

Washington, May 13.—Many million dollars in taxes were lost today by the state of Oklahoma by a decision of the United States supreme court that the state cannot tax land allotted to about 8,000 less than half blood Indians.

The state claimed the right to tax the lands under a law of May 27, 1908 which provided that the land of less than half blood Indians in Oklahoma should be free from restrictions as to sale and subject to taxation.

The court held that the terms of the patent to the Indians were binding on the Indians and so its terms, one of which exempted the land from taxation, should be binding on the government. The court also held the exemption went with the land when sold and was not personal to the Indian.

This decision reverses the supreme court of the state, which held in three different cases that the land was taxable. These decisions were rendered in the case brought by George W. Choate and several hundred other Choctaw and Chickasaw allottees against State Auditor M. E. Trapp in Logan county, in the case of Bessie Brown English against the county treasurer of Tulsa county and the Richardson case, from Pittsburg county. All three were decided by the state court in favor of the state's right to tax the lands and all were appealed.

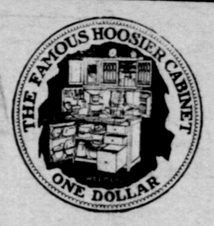

The decision is interpreted as by Attorney General Charles West, who has had charge of the litigation on behalf of the state, as meaning that the McCumber amendment, which removed the restrictions from the classes of lands involved in this suit was invalid insofar as it also attempted to remove the exemption from taxation of those lands.

The provisions in regard to that matter in the patents were a little different in the different tribes. An explicit provision that the land should be exempt from taxation was contained in the Cherokee patents, which the others were more indefinite, but it is presumed that the ruling of the court will be the same in regard to all of the cases.

A large part of the land on which the restrictions were removed by the McCumber amendment has already been sold by the allottees, but according to the court's ruling the purchaser as well as the original allottee is exempt from taxation for the full period of twenty-one years provided for in the tribal treaties.

Members of the Oklahoma delegation in congress are not willing to admit that their state has been so hard hit. Senator Gore says the damage to the state is greatly exaggerated because the tax exemption applies only to land while it is in the hands of the original allottee, whereas, much of the land has been sold by the Indians and has thus become taxable. The Senator has written to Gov. Cruce for exact data as to the amount of land affected by the decision.

Without undertaking to state just what proportion of Oklahoma's lands are affected, J. F. McMurray, who fought this suit for the Choctaws and Chickasaws to its successful conclusion, estimates that $60,000,000 worth of Indian land is exempted from taxation by this decision.

"JOHN AND HIS HAT" AT CITY HALL TO-NIGHT

Postponed on Account of Weather. Will Lecture Rain or Shine To-night—Much Enthusiasm Prevails.

While some of the most enthusiastic admirers of the "Georgia Cyclone" braved the elements last night to hear the famous Georgian, there were so many requests for postponement that it was decided to have the lecture to-night instead.

Inasmuch as Mr. Upshaw must leave early Wednesday morning for Oklahoma City it is announced that he will speak tonight rain or shine at 8:30 at the city hall.

The Washington (D. C.) Star says: "A crowd that overflowed into the galleries braved a snow storm last night to hear Will D. Upshaw the 'Georgia Cyclone' and 'John and His Hat' kept the crowd enthusiastic from start to finish."

Knights of Malta.

Butler, Pa., May 14.—A big parade marked the opening here today of the twentieth annual convention of the Pennsylvania grand commandery of the Knights of Malta. The sessions will last three days, with Grand Commander Robert B. Keller of Stroudsburg presiding. The annual reports show the order in this state to be in a flourishing condition. On the rolls are nearly 25,000 members distributed among 450 local commanderies.

CLARENCE DARROW READY FOR TRIAL

CHIEF EVENTS IN LIFE OF CLARENCE S. DARROW

Born at Kinsman, Ohio, April 18, 1857.

Admitted to the bar in 1875.

Moved to Chicago in 1878.

Defended and obtained acquittal of Thomas I. Kidd of Amalgamated Woodworkers' Union at Oshkosh, Wis., on a charge of conspiracy in 1897.

Pleaded cause of anthracite miners before commission appointed by President Roosevelt in 1902.

Defended William D. Haywood in murder trial in Idaho and obtained his acquittal.

Took charge of defense of McNamara brothers in Los Angeles dynamiting cases in 1911.

Prisoners pleaded guilty before trial.

Indicted for bribery of two jurors summoned in McNamara case.

Los Angeles, Calif., May 14.—The case of Clarence S. Darrow, former chief counsel of the McNamara brothers, and now charged with the bribery and attempted corruption of two jurors in the case of the confessed dynamiter, James B. McNamara, now serving a life term in San Quentin prison, will be called for trial tomorrow in the county court. Both the prosecution and the defense claim to be ready for the trial and it is quite likely that the latter will proceed without further delay. The trial promises to be no less a cause celebre than the McNamara case and it is quite possible that it will last a month or more. Some are even inclined to believe that it will not be concluded short of three months.

Clarence Darrow has many staunch friends and they have nobly rallied to his support. Among them are J. Ham. Lewis, democratic candidate for the United States senatorship of Illinois; Lincoln Steffens, the magazine writer, and former United States Senator Pettigrew, of South Dakota. Others are expected here from Chicago later on to testify to Mr. Darrow's good character and reputation.

Clarence S. Darrow is charged with bribery and attempted corruption of Robert Bain, a juror in the James B. McNamara case, and the bribery and corruption of George N. Lockwood, a venireman, called in the same case. At the coming trial Darrow will act as his own principal attorney and will be assisted by Judge Cyrus McNutt and Earl Rogers. McNutt was identified with the McNamara defense and Rogers was counsel for Patrick Calhoun during the famous graft trials in San Francisco and also directed the first work of investigation of the Times dynamiting case.

The prosecution will be conducted by District Attorney John D. Fredericks, assisted by deputy district attorneys Ford and Keetch. It is believed that the state will rely to a great extent upon the testimony of Bert Franklin, a well known labor man, who was connected with the defense in the McNamara case and who is himself under indictment, charged with jury bribing. It is believed that Franklin will be the chief witness against Darrow. It is also believed that Mrs. Ortie E. McManigal and Detective Guy Biddingar, both of Chicago, will be called as witnesses by the state.

The maximum penalty defined for bribery is ten years in prison. For corruptly influencing one drawn as a juror five years and a fine of $5000 is provided by the law. Should Darrow be found guilty on all of the four counts of the charge, 30 years imprisonment and $10,000 fine might be imposed. It is not considered likely, however, that the maximum penalty would be inflicted, even if the state should succeed in clearly proving its case against Darrow. The latter denies his guilt and his friends are hopeful that he will succeed in completely clearing himself.

Wilson Favored in South Carolina.

Columbia, S. C., May 14.—Whether South Carolina's eighteen delegates to the Baltimore convention shall be instructed for Woodrow Wilson or go uninstructed is believed to depend wholly upon which faction of the state organization is able to dominate the state convention which meets here tomorrow. Practically no campaign for any candidate other than Wilson has been made in this state. The faction led by Governor Coleman Blease, who is a candidate for another term, favors an uninstructed delegation. The rival faction, under the leadership of Judge Ira B. Jones, who aspires to succeed Blease in the governorship, will fight hard in the convention for Wilson instructions.

See End of Anthracite Strike.

Wilkesbarre, Pa., May 14.—A joint convention representing the miners in the three anthracite districts assembled here today to act on the refusal to ratify the tentative agreement by the conference committee of the mine workers, which was arranged by their sub-committees and the operators. Though the sentiment of the delegates on the question of satisfying the agreement in the face of the action of the executive boards in voting it down, appears to be divided it is believed that a majority of the delegates will vote for ratification. If, on the other hand, the convention rejects the tentative agreement, it is expected by the leaders that the committee of 10 will be empowered to enter into another joint conference and conclude an agreement that will be subject to ratification by a referendum vote. Whichever course is pursued it is hoped to bring about a resumption of work in anthracite fields within the next week or ten days. The strike already has been in force six weeks.

Another week will witness the election of practically all delegates to the National convention. At this distance it looks like Taft will have his nomination cinched and that Clark will be in the lead in the democratic convention. The real fun will not come off, however, until the conventions assemble.

REPUBLICAN PRIMARIES IN TEXAS.

The Texas democrats had no monopoly of political excitement and turmoil on May 4. The G. O. P. has a fight on its hands and there were some lively and sensational contests in many localities in this state. The Roosevelt representatives, or, to be accurate, the Roosevelt representative, at Menard, exhibited strategy of a high order and won instructions for his chief by one vote. The Menard Messenger tells how it was done:

"The republican convention met on the sidewalk Saturday and threatened to be a hot encounter, but the Taft follower was called to the telephone and during his absence the other republican instructed for Roosevelt.'

As an offset to this Roosevelt victory Stephens county instructed for the president by a majority of two. The Breckenridge Democrat brings in this report:

"In the republican mass meeting held Saturday there were only two members of the party—J. R. Crudgington and Tom Sanders—present. Mr. Crudgington unanimously elected Mr. Sanders county chairman and Tom reciprocated by unanimously appointing Crudgington delegate to the state convention at Fort Worth. The meeting favored Taft and Lyon, though it looked for a while that during a wild burst of enthusiasm, it was going to be stampeded to Roosevelt and—MacGregor! However, Sanders and Crudington quickly regained control and put their steam roller in operation and flattened out all Roosevelt members (not) present. After that the meeting was very harmonious."—Fort Worth Record.

MEXICAN REBELS GET WORST OF BATTLE

El Paso, Tex., May 13.— The slaughter of rebels at Cuatro Cienegas and vicinity a few days ago perhaps was the worst blow thus far inflicted upon the insurgent army. Dispatches to the El Paso Herald today declare the rebels under Gen. Salazar were caught in a canyon and his force of 2,000 was nearly annihilated. Some escaped by climbing over the rocks out of the death trap and others were shot to death from above, where the federal fire was continued for hours with terrible accuracy.

Gen. Salazar had 2,000 men at Cuatro Cienegas and is believed to have joined Orozco for yesterday's fighting at Conejos with only 500 survivors. Of the 1,500 missing more than 800 are believed to have been killed. The rest of them fled, each man for himself.

Some of the retreating rebels were overtaken on the desert and killed. Others died from lack of food and water. The barren plans between Cuatro Cienegas and Sierra Mojada, a distance of 100 miles, are said to be strewn with rebel dead.

Mrs. Armour, who has been here on a visit to her daughter, Mrs. Herman Beck, left this morning for Muskogee.

One of the most laughable comedies seen in a long time was shown at the Majestic last evening. This was "Gay Times at Jacksonville, Florida," in which two greeners took in the sights of that popular place, getting into every sort of scrape, but through it all having the time of their lives. This picture will be shown again this evening. Two new ones will also be presented these being "Ones Who Suffer' and "The Governor Who Had a Heart.'

Rev. W. C. Golden of Nashville, Tennessee, en route to the Southern Baptist convention at Oklahoma City, is visiting his sister, Mrs. F. W. Russell. Rev. Golden is one of the best known ministers of the Baptist denomination. For a number of years he was pastor of the First church of Nashville, and is now in the evangelistic work.

This evening the Empress will show 3,000 feet of pictures, giving its patrons a program of almost an hour and one that they will appreciate. Few can take in the sights of Paris, but all can see the picture, "Paris, 1910." "At Cedar Ridge," is a mountain story, and "The Peril of Diaz" is a thrilling Mexican war story.

Attention is called to the half page ad of the Grand Leader appearing in this issue. This sale is the real thing and no mistake.

The Beauty and the Beast will appear at the DeSota this evening. They are great, too. Two other good reels, tonight and tomorrow afternoon and evening the "Victim of the Mormons" will be presented. Three reels in this masterpiece.

The council meeting was rained out last evening, but will be held this afternoon to take the necessary steps to order the coming city election.

PAYMENTS ON INDIAN LANDS EXTENDED

May 9, 1912.

Hon. Robert L. Owen, U. S. Senate.

Sir: The Department is in receipt of your communication to the Five Civilized Tribes respecting an extension of time on the second deferred payment on lands purchased in the Creek and Cherokee Nations now or soon to become due, and also as to the second and final payments on Choctaw and Chickasaw lands, which will be due in November and December next. You suggest that the farmers are not in position to make the payments soon to become due in the Creek and Cherokee Nations, and also that they will not be able to meet the two payments due next fall on the Choctaw and Chickasaw sale, and that since these deferred payments draw interest at six per cent, there could be no injury done the tribes by an extension.

The Department realizes the condition of affairs because of failure of crops last season, and is inclined to exercise leniency in the matter of enforcing these payments. The Commissioner to the Five Civilized Tribes reports that in the Creek and Cherokee Nations the lands were sold in May, 1911, on terms of ten per cent cash, forty per cent in six months, and fifty per cent in twelve months, making the second payment due in November, 1911, and the final payment due in May, 1912. Extensions were authorized for the second payment for a period of six months in individual cases, thereby making the second and final payments both fall due. He recommends that an extension of the final payment be granted. Believing that conditions warrant it, an extension of six months on the final payments for these lands will be granted. This delay can not jeopardize the interests of the Indians, because fifty per cent of the purchase price will have been paid.

An extension of the second payment on sales in the Choctaw and Chickasaw Nations was granted so that, as stated by you, two payments will fall due next November and December. Believing also that the conditions are such as would result in great hardships to the purchasers of these lands, who are largely farmers, if the two payments are to be enforced next fall, and that no injury will result to the Indians from an extension of time for the third payment, an extension for a period of one year as to that payment will be allowed. This extension will not work any delay in the final closing up of the affairs of the Choctaws and Chickasaws, since it will not extend beyond the time for payment on sales of the surface of the coal and asphalt lands.

Very respectfully,

SAMUEL ADAMS,

First Assistant Secretary.

COLLINS FOR COMMISSIONER OF PUBLIC WORKS

E. S. Collins, who has announced his candidacy for the office of Commissioner of Public works is another pioneer of Ada. Mr. Collins has been here all through the rapid changes that have taken place during the time Ada was growing from a village to its present size, and he has not been an idle spectator, either, for he has always been busy.

Mr. Collins is familiar with the duties that will devolve on the commissioner under the new government, for he has laid a considerable amount of the water mains now in use, and served the city well as street commissioner. Being a man of energy and one who has had experience in these lines of work, Mr. Collins is well qualified to give the city a strong administration, if he is the choice of the voters, and being so well and favorably known it is certain that he will receive a heavy vote.

EFFECT OF SUPREME COURT DECISION

Pontotoc county will be hard hit by the decision of the Supreme Court that the Indian lands from which restrictions have been removed are non-taxable while in the hands of the original allottees. County Clerk Kerr and Tax Assessor Herd state that it will mean the reduction of the taxable lands of this county from 200,000 to 100,000 acres, and a corresponding reduction in the assessed valuations. In short, the valuations will be affected to the extent of a million and a half, or if assessed as fixed by the state board last year, about $2,000,000.

Oklahoma Glass Sand Valuable.

Norman, Okla., May 14.—Frank Buttram, chemist for the Oklahoma State Geological Survey, has just returned from an inspection of the glass sand ledges in the Kiamachi Mountains. He reports that the glass sand in Oklahoma is easily accessible to the factories of the state and is of much better quality than that of Saint Louis which the Oklahoma manufactures are importing. While away Mr. Buttram visited the six glass factories of Oklahoma located at Tulsa, Okmulgee, Avant and Bartlesville. He expresses the opinion that the industry is sure to attain large proportions in the state and declares it is but a question of time until Oklahoma will be exporting instead of importing glass sand.

WILLIAMSON BROTHERS RELEASED ON BOND

Yesterday afternoon the three Williamson brothers, charged with dangerously cutting Ed Duncan at Francis Saturday evening, waived examination before Justice Brown and their bonds were fixed at $1,000 each. They made these today and were released.

Duncan is reported to be doing well today and every indication points to his complete recovery.

S.S.S. REMOVES BLOOD HUMORS

Every pore and gland of the skin is employed in the necessary work of preserving its smooth, even texture, softening and cleansing it and regulating the temperature of our bodies. This is done by an evaporation through each tiny outlet, which goes on continually day and night. When the blood becomes infected with humors and acids a certain percentage of these impurities also pass off with the natural evaporation, and their sour, fiery nature irritates and inflames the skin, and dries up its natural oils, causing pimples, boils, pustules or some itching rash, or hard, scaly skin affection. S. S. S. cures skin troubles of every kind by neutralizing the acids and removing the humors from the blood. S. S. S. cools the acid-heated circulation, builds it up to its normal strength and thickness, multiplies its nutritious, red corpuscles, and enriches it in every way. Then the skin, instead of being irritated and diseased by the exuding acrid matter, is nourished, soothed and softened by this cooling, healthy stream of blood. S. S. S., the greatest of blood purifiers, expels all foreign matter and surely cures Eczema, Acne, Tetter, Salt Rheum and all other diseases and affections of the skin. It removes pimples, blackheads, and other unsightly blemishes from the skin and assists in restoring a good complexion. Book on Skin Diseases and any medical advice desired free to all who write.

Railway Business for February.

Returns of the railways to the Interstate Commerce Commission for the month of February, 1912, which have been compiled by the bureau of Railway Economics, show increases both in receipts and expenses as compared with February, 1911.

The returns, which cover about 90 per cent of the steam railway mileage of the country, average as follows per mile of line for the month: Total operating revenues per mile of line averaged $966, as compared with $891 in February, 1911, the increase resulting almost entirely from freight traffic, passenger revenue having slightly decreased. Operating expenses per mile of line averaged $712 as compared with $668 in February, 1911; net operating revenue $254, as compared with $223 in February, 1911 Taxes amounted to $44 per mile of line, an increase of ten and nine-tenths per cent over February of the previous year.

As February contained twenty-nine days in 1912 and twenty-eight days in 1911, the returns for this month of the current year, others things equal, would be one twenty-eighth, or nearly four per cent, greater than for February, 1911. A comparison that eliminates the effect of the extra day is of the returns per mile of line for each day. The net operating revenue thus averaged $8.76 per mile of line per day in February, 1912, $7.95 in 1911, and approximately $9.20 in 1910.

Therefore $8.76 is the average amount that accrued to each mile of line for each day of February for the payment of taxes, rentals, interest on bonds, appropriations for betterments and dividends. and this on a net average capitalization stated by the Interstate Commerce Commission in its volume of statistics for the fiscal year 1910 to be $62,657 per mile of line. The total net capitalization of all of the railways of the United States as shown by that report is $14,338,575,940.

GRAY HAIR MAKES YOU LOOK OLD

A Simple Remedy Brings Back the Natural Color—Dandruff Quickly Removed.

How often one hears the expression, "She is gray and beginning to look old." It is true that gray hair usually denotes age and is always associated with age. You never hear one referred to as naving gray hair and looking young

The hair is generally the index of age. If your hair is gray, you can't blame your friends for referring to you as looking old. You can't retain a youthful appearance if you allow your hair to grow gray. Many persons of middle age jeopardize their future simply by allowing the gray hair to become faded or gray, try Wyeth's Sage and Sulphur Hair Remedy, a preparation which a chemist by the name of Wyeth devised a few years ago. It is simple, inexpensive and practical, and will banish the gray hairs in a few days. It is also guaranteed to remove dandruff and promote the growth of the hair.

It is a pleasant dressing for the hair, and after using it a few days itching and dryness of the scalp entirely disappear.

Don't neglect your hair. Start using Wyeth's Sage and Sulphur today, and you will be surprised at the quick results.

This preparation is offered to the public at fifty cents a bottle. Special Agents, Gwin & Mays Drug Co.

GOTA QUITA KICKEN OUR SCHOOL AROUN'

We've got a school in our town,
It's not a school of great renown,
Br. Mr. Akin I'll be boun',
Has gotta quita kickin our school around'.

CHORUS

But Mr. Akin I'll be boun',
You'd better quita kicken our school around',
The people will surely turn you down
If you don't quita kicken our school aroun'.

The politicians as a rule,
Are afraid to tackle the poor man's school,
And any man is a great big fool,
If he keeps a kicken the farmer's school.

It makes no difference if they do cost "mun."
We'll lambast the son-of-a-gun
Who thinks that it's a bunch of fun,
To fix our school so it can't run.

A man is worse than a yaller houn,
who kicks the farmer's school aroun',
And he'll soon sleep 'neath a nice green mound,
If he don't quita kicken our school aroun'.

Texas Firemen's Convention.

Austin, Tex., May 14.—Delegations of firemen from all over Texas, many of them accompanied by bands, poured into the capital today for the annual convention and tournament of their state association. A big parade of the local department and the visitors ushered in the gathering this morning. Later in the day the convention assembled at the Capitol, with President John McKinney of McKinney, Tex., presiding. The gathering will continue until Friday, on which day the hose wagon races and other prize competitions will be held.
